A unique mix of livedrums, digital sounds and samples, ragga voicing and international guests turn every floor into a sauna, each concert to a workout for body and soul. SHAKE iT!

LONGFINGAH (voc) and ALEX (drums) played hundreds of shows in ten years Ska-T, a ska and ragga band from the mid 90ies.

Later, they toured with soloprojects and other acts like Wood in di fire or Rude Riddim... nothing really big, but very special!

ALEX was also working with bands like Portugal.The Man, Friska Viljor or Karamelo Santo, more or less behind the scene, always down for a jam.

Now, all back into music and with the cheerful support of DRMZ (playing everything with tiny knobs), the guys build up a band which is open to friends they made the past years. Gaining styles, influences and ideas from all over the world, work on the first album will continue till fall 2009.
